ASSY SAL MINE IS

OF GOLDFIELD

Wives are being kept hot with reservations, and all Goldfield is expectant and excited.

Diversibedy's attention is riveted on Jones, as his moves in the mining world are those of a master craftsman, who is known as a sofe man for investors to follow. His great January strike that returned \$10.000 for every \$100 invested gave him an army of followers, and then the finality Belling belling belling by the projecting and in which he allowed his friends to secure \$10.000 shares last April at 15 cents each, is to-day selling on the Wall St. Exchange on a basis of a \$40.000 value, at the for the indice, 46 cents per share, or like the general supposition that the like interest companies on the banks the use of these funds only while interest rates to secure \$10.000 shares last April at 15 cents each, is to-day selling on the Wall St. Exchange on a basis of a \$40.000 value, at the projecting the full amount of the string companies of the projection with the heavy loan operations being the project of the same full to secure \$10.000 shares last April at 15 cents each, is to-day selling on the Wall St. Exchange on a basis of a \$40.000 value, at the first of the projecting and incompanies of the projection with the heavy loan operations in the project of the banks the use of the first project of the same for invested gave him an army of followers, and then the findity Bellines mine, which he organized and in which he allowed his friends to secure \$10.000 shares last April at 15 cents each, is to-day selling on the Wall St. Exchange on a basis of a \$40.000 value.

The recurred special supposition that the leavy lean contraction to the hughs due.

SPICIAL NOTE January Jones persomally answers all letters of inquiry about his mines, and will, upon request, furnish illustrated prospectuses, engineers' reports and facts backed by banks.

Address January Jones Exploration cottoing jump in price are deluging Jones with orders for stock. The telegraph Vork, or Goldfield, Nev.

demand of \$85,361,143, the litera of loans on collateral at that date standing at \$775.835.

ment will reveal how large a part of the total banking resources of this center is represented by these figures. Last year most of the trust companies

STATEMENT OF BANK AVERAGES. Decrease in Cush Shown Correspond? With the Estimates.

The local market for wheat was easier yesterday. There were a series of so called factors which influenced the cituation and made prices decline. In the first place, cables were disappointing and news from abroad varied generally from the day before and eased quietly to the favor of the selling side. The world's shipments came up heavily and showed discouraging figures. Broomhail placed the total in his estimate at 2,000,000 bu., of which 5,000,000 bu. were headed for Europe. This fact proved discouraging to the bulls. Primary receipts were heavy, though locally the receipts

were somewhat light. Armour and Valentine were reported in the Chicago market as increasing their holdings of both wheat and corn. Weather conditions are generally favorable to the buying side, but there has come a feeling now wherein the weather map counts for nothing, it being a settled thing that the yield of every county in the three States will run as estimated. Liverpool eased off in the late market on realizing of profits and better news from Russia. Looking over the domestic market, traders are forced to back down and simply wait for the outcome of the purchase of the Armour interest.

Locally for corn the feature of the day was the arrival of the first car from Indian Territory. This arrival was graded as No. 2, which is a good indication of the new crop. Shippers of this first car claim that they took the ears at random, and that they represent fairly what may be expected for the full yield. The Continental markets for corn are fairly steady and a good demand is being worked up, which the buils claim will not fall to help American prices.

Dec. wheat opened willie lower and closed withe lower.

Dec. corn was ti've bid. Dec. oats were unchanged?

Receipts of produce were in fair volume. Prices of fruits and vegetables were er erally steady.

Local securities were in fair demand. Bank stocks were the best-supported issues Yesterday's bank clearings were \$,\$77.00, balances \$19,29. Discount rates were steady between 4's and 6 per cent.

Cotton was steady in the local market.

BANKING ISSUES ARE WELL SUPPORTED.

Mercantile Trust Shares Are Well Maintained in Market.

Mercantile Trust shares were the fea-ture of yesterday's session of the St. Louis Stock Exchange. An active de-mand existed for this issue, but the brok-ers handling the business stated that there was nothing save some buying oriers to cause the activity. Rumors of a possible increase in the Christmas extra dividend were demed. were denied.

Tractions were steady, though not very active. Third National Bank was strong, sales teling made at \$25. All told, the sales of Mercantile amounted to 145 snares and they were at \$97 and \$38. State National Bank sold in one 25-share lot at \$191.

SUMMARY OF ST. LOUIS MARKETS WHEAT PRICES ARE EASIER ON NORTHWEST WEATH ON NORTHWEST WEATHER

STEADY TONE PREVAILS IN CORN PIT.

Oats Are Firm on European Demand, and Provision Shorts Cover on the October Products.

Chicago, Oct. 7.—Sunny skies Northwest and an absence of export demand let the wheat market ease off to-day. At the close the Dec. delivery was down %6%c. Corn, oats and provisions are almost unai-tered.

Another factor in the initial depression here was ideal weather for the movement of the new crop in the Northwest.

From the start many small holders were eager to dry se of their lines.

Commission-houses also had selling orders. Before the end of the first hilf hour Dec had sold off to MyDSPyc. Lack of any definite news regarding export business had considerable influence on trading. As a result of moderate demand from a leading buil, the loss was later all regained, Dec. at one time selling at 853c.

Sign and the last hour prices fluctuated within a narrow range. The market closed steady, with Dec. off Market.

Clearances of wheat and flour were equal to \$9.50 bit. Primary receipts were L22-00 bit., compared with a holiday a year ago. Minneapolis, Duluth and Chicago reported receipts of \$30 cars, against 1.15 cars last week. VOLUME OF TRADING LO Receipts and News From Abroad

Arrivals To-Day.

Corwin H. Spencer......Illinois River

River and Suviness. The business on the river vesterday was brisk in many lines. The receipts were liberal, but the freight efferings were hardly up to the unni Saturday standard. Some extres is help-ing the cargo of the in-beats from the Lower Windowski The river is failing slowly and will continue to do so for forty-eight hours. The gauge at the lianton Office yesterday morning at 5 a. m. registered 11.75 feet, indicating a fail in the stage of the river at .55 of a foot in twenty-four hours.

River Righto Brevities.

Sentiment in the wheat pit was inclined to bearishness throughout the session. At the opening the life, option was off be to be a sentiment in the wheat pit was inclined to bearishness throughout the session. At the opening the life, option was off be to be detailed the sentiment of the market at Liverpool to respond to an advance here yesterday. The reason for the comparative weakness at Liverpool was said to be quite general belief in the lineliheed of a much heavier movement of wheat from Russia within the next few weeks.

Another factor in the initial depression wheat from the initial depression to the server and transities and T. M. Steger vice president. The directors are composed of the others and Matthew Grave, Henry 1-8. The steamer Joe Fouler has gone on the set Pholacab for general repairs.

The Peters Lee arrived from Memphis yes-tering morning with a good run of freight including 6.50 feet of lumber. To bundles of laths, to bales of cetten and miscellaneous freight. She departed vesterday afternoon at a orlock with a good run of freight and pas-sensors. engers. sengers.

The Sneker Lee will not arrive in persumit the inicile of fext week. The boat has been delayed by fog.

The Bald Eagle arrived in pert Saturiary merning with Less barrels of apples and a beavy run of interelaneous freight. She departed at \$1 \text{p.m.} is nevertainly for Postia.

The Strend Engle dept ted vesterday after from the Hardin, on her down trip from Graft ton she brought in 100 barrels of apples and a full run of coneral freight. The towheat Beaver of the Barrett Line arrived vesterday merting with two burges of less constants to the St. Louis Basics and Bes Company

An effect is before made by residents of that section to have the tenerum at make improvements in the S. Francis River, opening the stream from SI Francis to Marked Tree and in straighten it from Marked Tree to its much it is said that several Senators and members of the House have pleuged their support in the matter.

of the Fronce have pledged their support in the mailter

Joseph N. Carperter, owner of the Vicks burg and Natcher packet Senator Cordill and one of the largest escrators in cotton along the lower Mississippi River, has withdrawn from the firm of Alword Vickett & Ch. of New York and will organize a new company known as Carperter Paccol & Co. Several of the members of the old firm have become members of the new connerm.

The New Orleans Rem says: "The packets out of Vicksburg continue to try to do business, but the planters and merchants along the river are not inclined to make shipments of colton or seed, or will they receive freight from any infected point, and the consequence is that the beats are doing a very light posiness.

The Richardson left for the last trip up The Richardson left for the last trip up the river this season, going to Hamburg and Mexicos She will return Monday and will be replaced by the Buttorn.

-The Chester departed yesterday for Cago Girardeau. Gradeau.

"Captain I. P. Lush, general agent for the Damont Jo Lane, returned yesterday on the Dubuque from Cultion County, where he was attending to business connected with the large movements of applies north. The city of Saitille arrived from the Tennessee River yesterday afternoon, bringing up 6,500 feet of number, 8,000 bushels of pomuts to baies of cotton and in bead of cattle. She will depart for the Tennessee River Monday afternoon.

SPECIALS

Caro, III. Oct. 7.—River gauge reads 18 feet showing a fall of 4 during the last 24 hours weather fair and cool. The Government sing local II. G. Wright arrived from St. Louis at a m. and cleared for Memonis at 1038 a. m. The Charlotte Boeckeler departed down the fiver at 8 a. m. with empties. STIFF MONEY MARKET SEEMS LIKELY TOT BE CONTINUED.

SOME FEW STOCKS ARE THEREFORE SOLD.

But Not Enough to Sustain Strength of Market, and Closing at Point Decline for Greater Part of List.

New York, Oct. 7.—The weekly bank statement offered a warning of the small reliance to be placed on resterdar's late decline in the call money rate as a reflection of the situation of the money market.

cents each, is to-day selling on the Wall St Exchange on a basis of a \$160,00 valuation for the mine, 6 cents per share, of an advance of over 20 per cent in six months.

Such accomplishments are evidence of his ability to enrich his followers, and the discerning public with file funds never overlook the chance to co-operate with men like Jones.

Write or telegraph and reserve the number of shares of Goldfield Sarsy Sal stock you want and remit at the rate of 2 cents per share. The allotment won't list long, and if another strike is made in the nine within a week, as is expected, the price will be advanced without notice, SPECIAL NOTE January Jones per-

The cash in their vaults was then reported at less than \$2,00,00, which was less than 3.5 per cent of deposit habilities subject to demand. They had on deposit with banks other cash resources of \$165,549,56, which, of course, did double dury as reserve. The large toans placed in the stock market since that date by the trust companies would modify materially the loan item in this statement. Comparison with the items of this week's bank statement will reveal how large a part of the

total banking resources of this center is represented by these figures.

Last year most of the trust companies withdrew from clearing-house privileges rather than submit to a requirement to maintain 10 per cent as a minimum of cash reserve against deposits, to be increased to 13 per cent at the discretion of the clearing-house committee. The present great loan expansion has grown up on account of the existing excellent state of credit, and the quick convertibility of the large portion of it placed in call loans leaves the leaders undisturbed in their sense of groundly.

But abundant experience proves that this security does not extend to borrowers who employ funds to hold securities on margin. The purpose avowed by the president of the imperial Easik of Germany in advancing the discount rate to put a brake on speculation on the Boerse, was not without effect on sentiment in New York. The progress of the legislative investigation of life-insurance methods is of some sentimental influence in the stock market. Pisclosures of the arrogation of discretion to decide questions of propriety and of compliance with the letter of the law on the part of men powerful and influential in the financial world had its part in the skepticism felt toward last week's bank statement.

The dominance of the maney situation has kept other considerations in the background. Econès were well sustained on a small demand.

11. S. new is declined is, the 2s coupon is, the 3s registered is, and the old is coupon i per cent on call on the week.

With the Estimates.

New York, Oct. 7—The statement of the averages of the clearity house banks of this city for this xeek follows Loans, it is done to the thin to the statement of the averages of the clearity house banks of this city for this xeek follows Loans, it is done to the thin to the xeek follows Loans, it is done to the thin to the xeek follows Loans, it is done to the thin to the xeek follows Loans, it is done to the thin to the xeek follows Loans, it is done to the thin to the xeek follows Loans, it is done to the xeek follows Received
